

# EVANS BROTHERS COFFEE ROASTERS

## RICK AND RANDY'S PASSION

Passion! This trait is at the core of Evans Brothers Coffee, defining how brothers Rick and Randy approach coffee and life. They have always shared a passion for the outdoors, family and community, which led them to choose North Idaho as the ideal location to raise their young families. Their shared passion for excellent coffee, driven by Randy's extensive roasting experience and Rick's marketing expertise, led them to open Evans Brothers Coffee in 2009. Appropriately, the idea was first conceptualized while riding Schweitzer Mountain's Chair 6. Their mission was to elevate the coffee culture in the region while supporting the local community and the global coffee communities from which the coffee is harvested.

Rick, Randy and manager, Daniel Gunter, recently returned from a buying trip to Costa Rica and El Salvador. They spent time with the farmers, inspecting and selecting this season's crop from the top-scoring micro-lots and mills. In speaking with the brothers, you can

feel the passion in which they discuss their relationships at origin and the responsibility they feel to represent these hardworking producers. Says Rick: "Working directly at origin is extremely rewarding, as you understand the incredible effort it takes to produce top-quality coffee. Along with our importer partners, we can play a part in ensuring the farmer receives the financial benefit of their hard work, paying more for the best lots of coffee." The hard work of the producers as well as the brothers has paid off. Evans Brothers Coffee has received national recognition such as a Gold Winner at 2013 Good Food Awards, Top 8 in America's Best Espresso at CoffeeFest Seattle, and being featured at the foodie-famous James Beard House in NYC.

Evans Brothers' wholesale roasting business is growing as they continue to partner with the best cafés, restaurants and markets in the Inland Northwest. Spokane area partners include Main Market, Pilgrim's Market, Boots Bakery, Little Garden Café, Santé Restaurant

and Stella's. If you are in Sandpoint, you will find Evans Brothers to be a bustling roasting studio and urban rustic café in the Granary Arts District. The café features handcrafted coffees 'dripped to order' on the brew-bar and expertly crafted espresso drinks. The roastery is attached to the cafe, giving an authentic multi-sensory experience. Recently, Schweitzer Mountain Resort has chosen Evans Brothers to be their exclusive coffee roaster, giving the brothers a feeling of coming full circle since they first dared to dream of opening a roastery while on the slopes of their hometown mountain.
